Intern – Global Analytical and Food Safety Microbiology- Growth Curve
Abbott Nutrition, OSU Research Park
Job ID Number: 400022

Who We Are:
At Abbott, we're committed to helping people live their best possible life through the power of health. For more than 125 years, we've brought new products and technologies to the world -- in nutrition, diagnostics, medical devices and branded generic pharmaceuticals -- that create more possibilities for more people at all stages of life. Today, 99,000 of us are working to help people live not just longer, but better, in the more than 150 countries we serve.

Position Summary:
We are seeking a student from The Ohio State University (OSU) to primarily support Nutrition Microbiology lab on a project to analyze growth curves of micro-organisms in current Abbott Liquid Nutrition products.

The Student Will Be Responsible For:
- Prepare media
- Conduct growth study experiments
- Analyze data and present to project leader

What We Offer to Our Student Employees:
- Part-time employment with Abbott at offices located in Easton area during academic year
- Minimum of 8-10 hr/week and maximum of 19 hr per week
- Competitive hourly wage commensurate with year in school
- Flexible work schedule Monday to Saturday
- Personally-assigned workstation in a modern style office space
- Valuable experience in the global healthcare industry

Qualifications:
- Must be enrolled as a student at The Ohio State University.
- Must have previous Microbiology laboratory experience.
- Must have experience with aseptic technique
- Pursuing degree in food science, microbiology, or another technical field.
- Attention to detail, effective communicator, and excellent verbal/written English language skills
- Self-motivated problem-solver that can lead a project from beginning to end

Start Date/Duration: Summer Semester (May-August 2021).

Application Deadline: April 27, 2021
