Tenure Track Faculty Position at the Baker Institute for Animal Health

The Baker Institute for Animal Health and the College of Veterinary Medicine, Cornell University seek outstanding candidates for a 12-month faculty tenure-track position at the Assistant or Associate Professor level. Candidates must have a D.V.M./Ph.D., Ph.D., D.V.M., M.D./Ph.D., M.D., or equivalent degree(s) and demonstrated accomplishment in research in one or more of the following areas: virology, immunology, cancer, stem cell biology, mammalian genetics/epigenetics, or genome biology. The successful Candidate will pursue important questions in biomedical research consistent with the goals of the Baker Institute. Candidates with the potential to develop competitive research programs addressing questions pertaining to companion animals, and which also have implications for human health, are especially encouraged to apply. Successful candidates will be expected to develop extramurally funded research programs and to contribute to professional (DVM or MPH), graduate and/or undergraduate education.

The Baker Institute has a distinguished record of scientific discovery across a broad range of interdisciplinary areas relevant to veterinary medicine. The recruited faculty member will join a collaborative, interdisciplinary Life Sciences community on the Ithaca, New York campus of Cornell University, with campus-wide strengths in chemistry, engineering, biophysics, cellular and molecular biology, genomics, comparative cancer, and stem cell biology. Faculty at the Ithaca campus also have strong collaborative ties with colleagues at Weill Cornell Medical College in New York City and with the University-wide Radical Collaboration initiatives in several strategic discipline areas including genome biology, data science, and infection biology. The Baker Institute offers competitive start-up packages and modern laboratory facilities in a supportive, interactive research environment. For more information, visit the Baker Institute website at www.vet.cornell.edu/baker, or contact Dr. Scott Coonrod at bakervetfaculty@cornell.edu.

Review of applications will begin on 11/4/19 and will continue until the position is filled. Electronic application submission is required. Applicants may apply at: https://academicjobsonline.org/ajo/jobs/15342. The required sections of the application include a cover letter, curriculum vitae, one to three page research plan, one page teaching statement, one page narrative of contributions to inclusion and diversity, and email contact information for three referees who may upload their letters directly to the academicjobsonline.org website. Alternatively, reference letters may be sent directly to: bakervetfaculty@cornell.edu.

Located in the scenic Finger Lakes Region of New York State, Cornell University is committed to supporting a diverse and inclusive campus in which to work, study, teach and serve.
